

SAMADRITA ROY

Full Stack Developer (MERN) • React Native • React.js

Pune, India | 8420567946 | r.samadrита3@gmail.com | linkedin.com/in/samadrита-roy-975638188 | github.com/rSamadrита

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience at Tata Consultancy Services, primarily specializing in React.js and React Native, with growing hands-on experience across the MERN stack (MongoDB, Express.js, React, Node.js). Delivered enterprise-scale web and cross-platform mobile applications (iOS/Android) across aviation, fintech, education and government domains, supporting 750K+ production users. Core strengths in React component-based architecture, GraphQL/REST API integration, state management (Redux), and mobile app architecture, complemented by hands-on backend experience building REST API endpoints (CRUD operations) using Node.js and Express.js, with working knowledge of MongoDB. Strong grounding in Agile/Scrum delivery, GitHub-based version control, CI/CD, unit testing (Jest), and SDLC best practices, with working knowledge of AI-assisted development tools.

TECHNICAL SKILLS

Frontend: React.js, React Native (iOS & Android), TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Redux, Redux Toolkit

Backend (Growing): Node.js, Express.js, REST API Development (CRUD), MongoDB (working knowledge)

Mobile: Expo, React Navigation, AsyncStorage, Offline-First Patterns, Push Notifications, Deep Linking

Data & APIs: GraphQL, REST APIs

Version Control & Tools: GitHub, Git, Visual Studio Code, Xcode, Android Studio, Jira, Confluence, Webpack, Storybook, CI/CD, Strapi CMS

Testing & Quality: Jest, Detox (E2E), React Testing Library, Unit Testing, Peer Code Reviews

Architecture: Component-Based Architecture, Cross-Platform Architecture, Modular & Scalable UI Design, Non-Functional Requirements (NFR)

Methodology: Agile/Scrum, SAFe, Software Development Life Cycle (SDLC)

Accessibility & Performance: WCAG 2.0/2.1, Cross-Browser/Cross-Device Compatibility, Lazy Loading, Render Optimization, Responsive Design

Emerging Technologies: Generative AI, Prompt Engineering, LLM Integration, AI-Assisted Development Tools

PROFESSIONAL EXPERIENCE

React.js / React Native Developer (Full Stack exposure)

Feb 2022 – Present

Tata Consultancy Services — Pune, India

- Designed, developed and maintained 5+ enterprise-scale React.js and React Native applications supporting 750K+ users across aviation, fintech, education and government platforms, contributing independently as a subject matter expert (SME) across the SDLC.
- Contributed to backend REST API development using Node.js and Express.js, building and consuming CRUD endpoints to support frontend and mobile features, and gaining working exposure to MongoDB as part of full-stack enablement.
- Built reusable, component-based React and React Native architecture managed through GitHub version control and CI/CD workflows, accelerating delivery speed by ~70% and improving code maintainability.
- Integrated GraphQL and REST APIs across 20+ production modules, ensuring efficient data flow and predictable state management with Redux.
- Improved application performance by ~20% through lazy loading, render optimization, FlatList optimization, and efficient API consumption; achieved ~90% WCAG 2.0/2.1 accessibility audit scores.
- Collaborated with cross-functional teams of 30+ backend engineers, QA, designers and product stakeholders in Agile/Scrum ceremonies, sprint planning, unit testing and code reviews to deliver high-quality releases.

KEY PROJECTS

DSP Ireland – Government Pension Platform (Mobile + Web)

Nov 2024 – Present

React, React Native, TypeScript, GraphQL, Node.js, Express.js, Strapi CMS

- Sole developer architecting and building the React Native mobile application (iOS & Android) for a government pension platform serving 750K+ users, covering enrollment and opt-in/opt-out workflows; built REST API endpoints using Node.js and Express.js and worked with 60–70+ GraphQL endpoints for data fetching.
- Built a custom BlocksRenderer component for dynamic, multilingual, API-driven UI content across 5+ languages via Strapi CMS; ensured WCAG 2.1 AA compliance; recognized by TCS BANCS and TCS Interactive leadership for contributions.

Dibber Education Platform (Norway)

Jan 2024 – Sep 2024

React, Redux, Storybook

- Led frontend development for a back-office platform used across 600+ schools in 9 countries; built and maintained a Storybook-based component library of 40+ reusable components.
- Implemented Redux-based state management patterns directly transferable to React Native/full-stack state architecture; applied WCAG 2.0 accessibility standards.
- Received direct client appreciation and recognition from Global Head, TCS Interactive.

OMSA, Air India Express & Standard Bank – Enterprise Platforms

Feb 2022 – Nov 2024

React, TypeScript, REST APIs

- Delivered frontend solutions across insurance, airline booking and banking platforms; built 30+ reusable React components and API-driven, pixel-perfect responsive UI modules.

EDUCATION

M.Sc. in Electronic Science — Calcutta University, India (15 years full-time education) | Aug 2018 – Oct 2020

ACHIEVEMENTS

- Sole React Native developer on a 750K+ user government platform (architecture to production); recognized by Global Head, TCS Interactive, for Dibber platform contributions (600+ schools, 9 countries); awarded “Star of the Month” (2x) on the DSP project.
